

KING FORM RELEASE

King Form Release is a ready to use mixture of process oils and naturally derived chemical release agents that prevent the possibility of concrete bonding to formwork.

FEATURES & BENEFITS

- Does not contain diesel.
- User and environmentally friendly.
- Prevents and softens daily concrete build-up on formwork.
- Increases the life of wooden forms.
- Reduces corrosion on steel forms while in storage.
- Does not discolour or stain concrete.

USES

For use on all types of forms including wood, steel, aluminium, fibreglass and plastic.

PROCEDURES

Surface Preparation:

All form surfaces should be clear of hardened concrete. To ensure best results, remove rust and residues on steel forms prior to application.

Application:

Apply King Form Release with a low-pressure sprayer to ensure light, even coats. To ensure best results when applying by brush, roller, or sponge, coats should be applied as thin as possible. Re-coat all formwork prior to each and every use.

TECHNICAL DATA

Flash Point	160°C
Cloud Point	-10°C
Pour Point	-10°C
Colour	2.0 - 3.0
Viscosity	@ 40°C, cSt 8.5-10.0
Staining	None

PACKAGING

King Form Release is packaged in 20 litre (5.28 US gallons) pails and 205 litre (54.15 US gallons) drums.

SHELF LIFE

Unlimited when sealed properly.

.....
This product is designed to meet the performance specifications outlined in this product data sheet. If the product is used in conditions for which it was not intended, or applied in a manner contrary to the written recommendations contained in the product data sheet, the product may not reach such performance specifications. The foregoing is in lieu of any other warranties, representations or conditions, expressed or implied, including, but not limited to, implied warranties or conditions of merchantable quality or fitness for particular purposes, and those arising by statute or otherwise in law or from a course of dealing or usage of trade.
